Vitor Alves

IT infrastructure and governance

Bachelor in Computer Engineering with over 5 years of experience in high-availability corporate environments, now an infrastructure analyst at Senar-MT.

I work on virtualized environments (VMware vCenter and ESXi), perimeter security (Sophos Firewall) and corporate networks (Cisco). I combine hands-on troubleshooting with a strategic IT governance perspective: I draft Terms of Reference and support public procurement and technical contracts within the S System.

01 Professional experience

Senar-MT Cuiabá, Mato Grosso, Brazil

IT Infrastructure Analyst
April 2026 to present

- **Infrastructure management:** administration of the virtualized datacenter (VMware vCenter and ESXi) and Windows Server support.
- **Security and networks:** management of the Sophos XGS firewall, Cisco switches and wireless controllers (WLC).
- **IT governance:** technical drafting of Terms of Reference (ToR) for public tenders and IT contract management within the S System.
- **Projects:** technical oversight of network expansions and structured cabling.

IT Assistant
September 2021 to March 2026

- Level 1 and 2 technical support for users (help desk and service desk).
- Preventive and corrective maintenance of computers, printers and peripherals.
- User account, permission and access management through Active Directory.
- Installation, configuration and updating of corporate software and operating systems.

IT Support Intern
October 2020 to September 2021

- Assisted users with the Office suite and internet usage.
- Workstation assembly and cabling support.
- Software installation and printing troubleshooting.
- Triage of tickets opened for the IT department.

Tecnomapas Cuiabá, Mato Grosso, Brazil

Technical Support Intern
March to July 2020

- Monitoring of software and program tests.
- Supervised support for users and the IT department.

Carvalima Transportes Cuiabá, Mato Grosso, Brazil

Administrative Assistant Apprentice
January to December 2017

- Updating and organizing data in spreadsheets.
- Management and monitoring of freight quotes and negotiations.

02 Projects

Computer lab automation

PowerShell script that standardizes the setup of the labs' Windows 10 Pro workstations, replacing manual machine-by-machine work.

- Silent installation of software (browsers, PDF reader, antivirus, remote access and Office suite).
- User restrictions for the student profile and enforced default wallpaper.
- Performance tuning and scheduled tasks.

PowerShell · Windows 10 Pro · Automation

Terms of Reference for managed print services

Technical drafting of the specifications for contracting a multifunction printer service, in a public electronic auction.

- Technical requirements for A4 and A3 color devices, with a survey of compatible models from several manufacturers.
- Print accounting, secure print release and LGPD compliance criteria.
- Technical compliance review of the bids received.

Terms of Reference · Public procurement · LGPD

03 Education and certificates

Bachelor of Computer Engineering
Universidade de Cuiabá (UNIC)
Completed in December 2025
View diploma

INFRASTRUCTURE AND SECURITY

- Cisco: Introduction to Cybersecurity
- Sophos: Sophos Firewall (XGS) Practical Course
- Microsoft: Windows Server Deployment and Administration
- Microsoft: Hyper-V Configuration and Management

MANAGEMENT AND GOVERNANCE
